Dr Eco-stitch the clean conscience clinic (c.c.c)

Part of the 'Re-dress' Medical Group specialising in **NON SURGICAL SOLUTIONS**

You may think you look great the way you are but at what price?

At last you can achieve a radiant look without the ethical & environmental pain

Possible surgery side effects:

- Re-vitalisation** of feet that leave no carbon footprint
- Purification** of skin that avoids the damage caused by the pesticide poisoning that occurred in the previous colouring process
- Hydration** of your body's cells by saving millions of gallons of water used by the textile industry
- Soothing** of a tired mind caused by worrying about the human rights violations conducted by those big global corporations

Before

After

The ultimate fashion statement need not be made through the sweat of others. Let the highly trained 'Vegan Wardrobe Surgeon', 'Dr Eco-stitch' give you the positive glow that can only be gained from the knowledge that no small children had to be exploited to give you that 'clothing confidence look'.

The C.C.C provides an extensive range of affordable non-cosmetic surgical procedures for men and women
For non-cosmetic surgery with a personal touch

It isn't the cost of the clothes that you wear; it's the cost to the workers that matters. With flexible finance packages and 0% going to those naughty multi-nationals that pay their workers a disgraceful wage.
